Every woman should know that there is a great home medical book that tells all about the reproductive physiology of women, and all about the home-treatment of diseases peculiar to the sex. This book contains 1008 pages and over 700 illustrations. It is called Dr. Pierce's Complete Medical Adviser. It used to cost \$1.50. Over seven hundred thousand people purchased it at that price and over 1,200,000 people now own copies of it. For a limited time copies will be given away free.

This great book contains the names, addresses, photographs and experiences of hundreds of women who were once hopeless invalids, but who have been restored to robust womanly health by the use of Dr. Pierce's Favorite Prescription. This marvelous medicine acts directly on the delicate organs distinctly feminine. It makes them strong, healthy, vigorous, virile and elastic. It fits for wifehood and motherhood. It banishes the usual suffering of the expectant months, and makes baby's advent easy and almost painless. It robs motherhood of its perils. It insures the robust health of the little new-comer and a bountiful supply of nature's nourishment. It transforms weak, sickly, nervous invalids into healthy, happy wives and mothers. For a paper-covered copy of Dr. Pierce's Common Sense Medical Adviser, send 21 one-cent stamps, to cover cost of mailing only, to World's Dispensary Medical Association, Buffalo, N. Y. For elegant French cloth binding, 37 stamps.

Miss Ruth Cain, of Clinton, Allegheny Co., Pa., writes: "After two years of suffering I began taking Dr. Pierce's Favorite Prescription and am now entirely cured. I had been troubled with female weakness for some time and also with a troublesome drain on the system, but now I am happy and well."

In cases of constipation and torpid liver, no remedy is equal to Dr. Pierce's Pleasant Pellets. They regulate and invigorate the stomach, liver and bowels. They never fail. One little "Pellet" is a gentle laxative and two mild cathartics. They never gripe. An honest dealer will not urge a substitute upon you.

SANITATION IN SANTIAGO.

What Americans Have Done For One of Cuba's Dirtiest Cities.

The city of Santiago, long known as a breeder of pestilence and one of the dirtiest and most unhealthy places in America, has been in American hands only about two months and is now in a condition of cleanliness that New York might almost have envied a few years ago. Under the system introduced by General Wood, who, it may be remembered, is a physician, Santiago is divided into five sections, each one under the general supervision of a medical man, who has under him inspectors of sewers, streets, houses and dispensaries and a number of street cleaners. Five hundred cubic yards of refuse are burned daily, disinfectants are distributed wherever they are needed, and a heavy fine is imposed for uncleanness or for any failure to report unhealthful conditions and deaths.

The results are shown in a decrease in the death rate within a month from an average of 70 to one of 20 a day. Among the troops the principal diseases are typhoid, malarial and yellow fevers and dysentery. The cases of yellow fever, several of which have been among the so called immunes, are few in number, and the disease is of a very mild type. The mortality from malarial or dysentery is much greater than that from yellow fever. Now that the Spanish troops have all left for Spain it is hoped that yellow fever can be made still less dangerous through the continuance of Dr. Wood's good work.—Medical Record

HIS SERMONS' PREPARATION

Dr. Hall Jotted Down His Thoughts Like "Paper Sparring Pope."

The late Dr. John Hall's method of preparing his sermons was peculiar to himself. It was his habit to write down everything he intended to say in a kind of shorthand of his own devising, using abbreviations such as B for Bible and C for church, and wd and shd for would and should. He jotted down his thoughts, like "paper sparring Pope," on the backs of old envelopes or any other scraps that came ready to hand, preferring them to sheets of paper because, in his own words, these scraps frequently suggested trains of thought to him and held a significance which he missed in formal sheets of paper.

But he never took these manuscript bits into the pulpit with him. He preached without notes, using the thoughts, but not necessarily the exact words, that he had written in his study. For many years he used to preach twice on Sunday in his own church and often delivered a third sermon or an address in another church in the evening.—New York Herald.

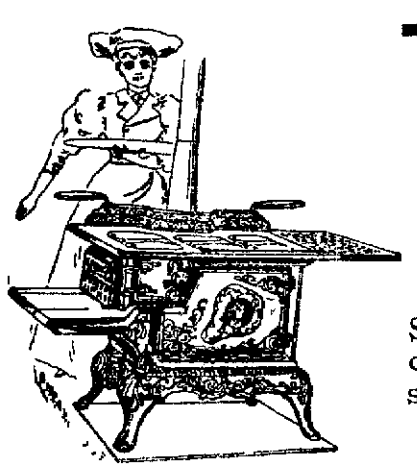

A Suggested Relief.

At the end of this year the government will have a war fund of \$150,000,000 left over. But we need not have another war to spend it. It will just nicely dig the Nicaragua canal.—Florida Times-Union and Citizen.

Girls' Stooping.

Many growing girls, especially those tall for their age, are inclined to stoop, and well meaning persons often advocate the use of braces or shoulder straps as a means of correcting the tendency. The braces may force an upright carriage, but they do not give the wearer any means of maintaining it, since they prevent the exercise of those muscles which should be trained to produce an erect figure. Any exercise which strengthens the muscles of the back and shoulders will aid in correcting this defect. Old fashioned mothers used to drill their stooping daughters to walk with a plate carried on their heads, and this is really a good practice. High pillows and very soft mattresses are blamed as an aid in producing this defect, and without doubt a flat, rather hard bed, with low pillow, is preferable for growing children. A stooping, awkward walk detracts so much from the appearance that there is every reason to avoid it, apart from the bad effect it exercises on the physical condition.—New York Ledger.

Free Medical Treatment for Weak Men

Who Are Willing to Pay When Convinced of Cure.

A scientific combined medical and mechanical cure has been discovered for "Weakness of Men." Its success has been so startling that the proprietors now announce that they will send it on trial—without charge and without a single payment—to any honest man. If not all that is claimed—all you wish—send at once. That ends it—no more. No such other was ever made in good faith before. We believe no other remedy would stand such a test. This combined treatment cures quickly, thoroughly and forever all effects of early evil habits, later excesses, overwork, worry, etc. It creates health, strength, vitality, sustaining powers and restores weak and undeveloped portions to natural dimensions and functions.

Any man willing in earnest will receive description, particulars and test cases in a plain sealed envelope. No business confidence. No deception. No imposition, of any nature. A rational reputation backs this offer. (Cut out and send this notice, or mention paper.) Address:

HANNA ALARMS THE REPUBLICANS

Mark Hanna arrived in New York yesterday with an ominous look on his face and alarming election figures in his pocket. His figures show that if more money is not contributed for the purpose of getting votes by the methods adopted in 1896, the silver forces will control the next House of Representatives. He says that in 1896 there were sixty Congressional districts in which gold men were elected by less than 500 plurality. This year there is a great deal of apathy, as was evidenced in Vermont and Maine, and that is bad for the party. One reason which Mr. Hanna assigns for this apathy is that the Federal offices are all distributed and men have not an object to work for.

Mr. Hanna admits that the silver question is top-side-up, and will figure in the November elections. The financial plank of the Chicago platform has been accepted by all parties that are opposed to the gold standard, except in New York, New Jersey and Connecticut, where the Democrats ignored it. He fears the majority in the next House of Representatives will stand on the Chicago financial plank and he dreads the consequences.

Mr. Hanna, of course, wants money to defeat the will of the majority, and his appeal for aid to the money syndicate and monopolies will not be in vain. His campaign fund two years ago, considerable of which was contributed by European gold brokers, amounted to \$15,000,000, and he is passing the bat for another contribution now to carry the elections in November.

There are three parties in Nevada, which profess to be opposed to Hannaism and all that it implies, who should be united, as the experience of four years ago should have shown them the folly of dividing. Strange to say one of these parties, which received great consideration from the silver party two years ago, is now, from the tone of its organs, much more intent on defeating the silver party than in crushing Hannaism. The real silver men of the State, whether classed as silver men or Democrats, are aware of this, and in Washoe and other counties, have patriotically united to defeat the gold men.

PLAIN WORDS FROM A SOLDIER.

General Nelson A. Miles was given a reception by his comrades of the Medal of Honor legion. There were a number of veterans present all of whom had received medals for conspicuous gallantry during the war. General Miles made a speech in which he used plain and patriotic language. Said he:

The volunteer troops of the United States in the war with Spain were as brave and as patriotic a body of soldiers as ever took the field in any campaign the world has ever seen. The battles they fought were won as gallantly as any recorded in history. And yet the peril which our soldiers had most cause to dread was not bullets, but disease, which swept over our camps and destroyed hundreds where bullets killed one. Our soldiers entered into the fever-stricken camps as they went up the hill in the face of the enemy, with a courage and devotion that must open to them the glorious pages of history.

"Those who say that these men sickened and died because they wished to; those who blame the soldiers and officers of our army for the disease and death that devastated the camps and thinned the ranks; those who assert that our soldiers suffered through their own fault, insult a quarter of a million of the bravest men that ever carried arms beneath the sun. "These men did not suffer and die because they liked it, and whoever says they did insults our army and the men who officered it. It is an affront to reason. I have nothing to say of the blame for the death of those brave men."

That is throwing down the gauntlet to Secretary Alger and all others, who made the senseless charge that the volunteers were to blame for the disease which prevailed and the privations they had to endure in the military camps established by the War Department.

HAWAII TERRITORY.

The Honolulu Star contains an outline of the form of government decided upon for the Hawaiian Islands by the Congressional Committee. The Islands will be called the Territory of Hawaii, and it will be allowed one Representative in Congress. This is different from the representation heretofore allowed Territories, as they have only one delegate in Congress, and he is not allowed to vote.

Hawaii will have a Governor, who is to be appointed by the President, at a salary of not less than \$5,000 a year. It will have a Legislature, to enact local laws subject to the approval of Congress. There will be no change in the present form of the Legislature, except that the property qualification of \$1,500 in real estate or \$3,000 in personal property now required to make an elector eligible to vote for Senator, is done away with, but an elector must have an annual income of \$600 to be eligible to vote for a Senator of the Territory. For other officers than Senator the franchise is free and unre-

stricted by any qualification, educational or otherwise.

The Judicial system will not be disturbed, but Judges will be appointed for four years instead of six years, and the question of citizenship is to be referred to the Department of State at Washington for final decision.

The Congressional Committee sent to the Hawaiian Islands to ascertain the wants of the people and report a form of government best suited to their needs, consisted of Senators Morgan and Cullom and Representative Hitt. The Commission upon its return declined to make public what it had decided upon concerning the future government of the Territory. It appears, however, that the conclusions of the Commission were made known at Honolulu, and, according to the Star, are as above stated.

A MALICIOUS FALSEHOOD.

Not a Shadow of Truth for the State-ment.

The Virginia Chronicle has the following:

The People's Advocate of Winnemucca uses the following in one of its recent editorials:

Stewart stated before the Senate Committee, which had the matter under consideration, "that it would be an imposition upon the railroad to compel them to establish a terminal point within the boundaries of this State, a desert where there was no business."

The above is a willful and malicious falsehood without a shadow of truth. No such sentiment, we are authorized to say, was ever expressed by Senator Stewart, nor was the question of a terminal point in Nevada ever discussed in committee in his presence. Why the editor of the Advocate should be constantly dealing in misrepresentations instead of seeking the truth is incomprehensible.

OPENING THE CAMPAIGN.

Stewart and Newlands on the Stump at Carson.

A large and appreciative audience gathered at the Carson Opera House Tuesday evening. The occasion was the firing of the first gun of the campaign and Senator Stewart and Congressman Newlands addressed the meeting on the issues of the hour. A great deal of interest was manifested and those present gave their undivided attention to the speakers from the opening to the close of the meeting.

"Shafter did not get within three miles of the front of battle at Santiago."

"Well, that is at least 1,500 miles nearer than you were."—Chicago Record.

Weather Report.

Following is the University meteorological report received from the U. S. Observer, San Francisco: Thursday fair and warmer.

The White Pine News publishes cheering news. It says eighteen copper claims in West Camp have been bonded after a thorough inspection of the properties, by an expert. The Chairman is expected to start up in a few weeks and the Pau boys have discovered a gold ledge which assays from \$5 to \$40 to the ton.

The Enterprise says: "It was rumored in this city yesterday that word had been received from San Francisco that the Supreme Court had rendered a verdict for Fox in the Hale & Norcross litigation for \$210,000 and interest."

Lady Arnold Wins Favor.

According to the New York Tribune, Lady Arnold, Sir Edwin Arnold's Japanese wife, has the distinction of being the only Japanese woman who bears an English title. The women are more friendly toward her than they were at the time of her marriage, when they looked upon her somewhat askance. She is described as being a typical Japanese beauty and Sir Edwin is devotedly attached to her. Her attractions are more noticeable when attired in her native garb in the privacy of her household. In public and when entertaining she wears the conventional costume.

New Dietetic Fad.

The next dietetic fad is going to be banana flour. Manufacturers are experimenting in this direction and promise soon a meal that will keep as long as wheat flour and make a much more nutritious bread. As already the craze for whole wheat flour is passing, this new albumen will undoubtedly meet a quick welcome when it comes. The use of the banana has developed its great value as an article of food, and the great army of banana consumers are prepared to accept eagerly its further development.

Mean Sort of Husband.

The meanest Washington man on record revealed himself last week. His wife has been vacationing for about a month past, with the children, at a summer resort up in the Blue Ridge. She is living at the home of her married sister. Her husband, the mean Washington man, went up to see her Saturday, to stay over Sunday. He took seven pairs of his trousers along with him to have his wife press them.—Washington Post.

Mrs. Eaton at Colorado College.

Mrs. Abbie F. Eaton, wife of the late Professor Eaton of Beloit, has accepted a call to the German department of Colorado college. Mrs. Eaton was graduated from the University of Wisconsin, spent three years of study in Germany and has written a number of German textbooks. She taught three years at Oberlin college and the past year at the University of Chicago.

A Woman Who Knows Her Business.

The men who come back from Santiago tell great stories and, sad to say, make very serious complaints of mismanagement and neglect in that campaign. They know what it really meant when food was wanting. They saw what were the results of confusion, unavoidable perhaps, in the quartermaster's and medical departments and of the dearth of all means to make the wounded comfortable. They know who did well, and they think they know who did badly, and most of them do not hesitate to express their opinions and beliefs. They are generous in commendation as well as free with censure. One person whom many of them, especially many of the wounded, remember and speak of is Miss Barton. "I tell you," said a returned newspaper correspondent, "that old girl knows her business. The way she took hold was beautiful. When she turned to after Siboney and made gruel for the men in the hospital, she must have saved many lives. Bacon and hard tack are not just the food for wounded men or even for fever patients, but that is what they were getting when Miss Barton turned up. She had been through it so often before that she knew just what to do and how to go about it."

Probably Miss Barton can endure being called "that old girl" by observers so appreciative as this one.—Harper's Bazar.

A Klondike Nugget.

A young man of Hamilton, Ont., who went mining to seek his fortune, wrote back to his father that he had done well and added this P. S.: "I will be home Wednesday evening. Meet me at dark just out of town and bring a blanket or a whole pair of trousers with you. I have a hat."—Short Stories.

Seen Too Often.

A Kansas boy writes home from Manila: "There are many queer customs to be seen here. The native women do not hold up their skirts when crossing the streets. They have no skirts to hold up. But that isn't the strange custom. The men do not look."—Kansas City Star.

The Spirit of Gordon.

Now ends the wrong that never shall be right—
Wrong part atoned—and Britain's bravest man
Sees from far calm the work he well began
Made sure. The Mahdi's hosts are turned to flight!
Breaks the red dawn and fades the weary night!
The sower dares to sow, and the caravan starts from Darfour and ancient Kurdo-fan.
And Nilus fears no more the tyrant's might.
Men say that night before Omdurman fell
They saw throughout the camp a headless ghost
And heard a voice: "Nay, think not, friends, of me!
For others, lo, I perished at my post!
Strike, strike, for others' freedom! All is well!"
And Britain struck, and half a world is free.

Superintendent Ross of the Comstock mines is now ready to let the contract for the construction of pumps to drain the lower levels of the Comstock. A number of prominent firms have been asked to bid on the machinery required.

The special car of Superintendent J. B. Wright arrived from Sacramento yesterday afternoon, and remained a short time. Besides Mr. Wright J. A. Fillmore, General Passenger Agent, and Dr. Huntington, the Company's physician, were passengers.

Free! Free! Free! Just think you have the satisfaction of knowing the exact condition of your eyes without costing you a cent by going to Doane, the graduate optician from Philadelphia. Located permanently at the Reno Drug Company's store.

Chas. A. Norcross addressed the High School pupils yesterday, taking the subject of "Washington." His address was very interesting and greatly appreciated by the students. The students propose to start a school paper and the first number will be out in a few days. It will be newsy and well edited.

H. H. Hamlin, the optician, is here with the finest line of goods ever handled. Anyone he has furnished glasses to within the past year can have them exchanged without cost if they are not properly fitted. Mr. Hamlin may be consulted at the Arcade Hotel. By patronizing him you have the advantage of being in a position to have your glasses exchanged without cost.

SENATOR JONES INTERVIEWED.

Predicts a Great Silver Victory in 1900 and Advocates the Return of Stewart to the Senate.

A representative of the Virginia Record interviewed Senator Jones at his residence in Gold Hill on the general aspect of the silver question in the East and on the local situation so far as regards the Senatorial election.

With regard to the status of the silver question, Senator Jones said:

"Everything points to a great victory for silver in 1900. Despite the industrious efforts of the goldbug press to convey the idea that the question is dead, silver continues the paramount issue throughout the land and I believe that we will win the election in 1900. The attention of the people with regard to monetary conditions has been diverted by the war, which has occupied their minds to the exclusion of everything else. But in spite of this, as everyday affairs resume their place in the attention of the public the money question comes once more to the front and will be the only issue in 1900, leaving everything else out."

"So far as the Republican party is concerned there is no pretense of being in favor of silver, except among the Republicans in Silver States. They come out boldly in the East, and even insist on discarding the St. Louis convention plank on silver, which at best was but a weak affair. Everyone who has conversed with leading Republicans in the East is aware that among them there is no friendship to silver; and that there is no talk in favor of silver among the members of that party, except by the few who call themselves Republicans in Silver States."

"I have no harsh expression for gold men; what I want is for men to be sincere. There is no pretense of friendship for silver anywhere east of the Missouri river; all Republicans are for gold, and it sounds a little curious to come here and listen to Republicans talking silver when ninety-nine one hundredths of their party is absolutely committed to the gold standard."

When asked for an expression of opinion as to the Senatorial problem, Senator Jones replied:

"Senator Stewart has made an excellent representative of the State. He is always alert, always faithful, and his every instinct is with the common masses of the people. The defeat of Senator Stewart at this time would be interpreted as a decline in silver sentiment even in Nevada and would be an injury to the cause in the East. It would be taken up by the gold press and the argument would be put forward that the silver cause is dead when those who watch over its interests are rejected in its very stronghold. In the East there is not a man who was with us in 1896 who is not still with us. At this particular juncture it would be a misfortune to defeat Senator Stewart, who has always been straightforward in his stand on the silver question—all ways hewed right to the line."

Too Much Firewater Causes a Cutting Affray.

Two of the noble sons of the forest, who had attended the circus and continued their holiday yesterday, imbibed too much fighting China gin or red liquor and wound up their celebration yesterday afternoon in a cutting affray on the vacant lot east of the Palace Hotel. Gus Koppe happened along and separated them, or there would have been two good Indians. One was cut badly in the arms and chest and the other had a slash in one of his hips.

Officer Leeper took them in and they were looked after by a physician. The strange part of the affair is that a number of Indians were sitting and standing around but made no efforts to stop the row, apparently concluding that if the combatants wanted to back each other up, they could go ahead and do so and it was nobody else's business.

COUNTY GOVERNMENT EXPENSES.

Comparative Statement of Cost, Which Will Interest Taxpayers.

As a general rule throughout the State the taxation for county purposes is higher than for State purposes. In this county this year the county tax is less than the State tax, though heretofore the county tax has been higher than the State tax. How the reduction was effected is made apparent by the following comparative statement of expenditures in 1896 under Republican control and in 1897 under the present administration. There are fourteen items of expense over which the Board of County Commissioners has direct control. The expenditures in 1896 and 1897 are as follows:

Roads and bridges 1896.....	\$9,347 80
Roads and bridges 1897.....	6,400 28
Reduction in 1897.....	2,947 52

Silver-Democratic Club.

The Washoe County Bryan Club held a meeting last night in their hall in the Ryland building. A permanent organization was effected, with the following named officers: President, Charles Gulling; Vice Presidents, J. F. Aitken, A. E. O'Connell, James O'Connell and H. H. Beck; Secretary, Sam Connelley; Executive Committee, John Michael, R. S. O'Connell, B. C. Moore, Henry Ritter, Dan O'Keefe and Sam Armanco; Program Committee, W. A. Phillips, C. A. Norcross, Sam Moxing, J. M. Fugh and W. I. Ferguson.

It was decided to hold the next meeting Friday evening, October 14th, at which time the Program Committee were instructed to prepare an interesting entertainment.

It was also decided to keep the club room open hereafter from 1 o'clock till 5 each afternoon, and from 7 till 10 o'clock each evening. The daily papers will be kept on file.

The Populists Ignored by the County Commissioners.

EDITOR JOURNAL.—In looking over the list of Election Inspectors appointed for the five Wards for Reno Township I find that there is not a name of a People's Party man on the list. Is it possible that the Board of Commissioners is not acting fair towards the People's Party? The Populists are most certainly entitled to representation on the Election Boards of the several precincts of Reno, and Washoe county for that matter. In the appointments made all the political parties are represented but the Populists. Why did the Commissioners fail to recognize the People's Party?

How To Look Good.

Good looks are really more than skin deep, depending entirely on a healthy condition of all the vital organs. If the liver is inactive, you have a bilious look; if your stomach is disordered, you have a dyspeptic look; if your kidneys are affected, you have a pinched look. Secure good health, and you will surely have good looks. "Electric Bitters" is a good Alternative and tonic. Acts directly on the stomach, liver and kidneys, purifies the blood, cures pimples, blotches and boils and gives a good complexion. Every bottle guaranteed. Sold at S. J. Hodgkinson's Drug Store. 50 cents per bottle.

For Over Fifty Years.

Mrs. Winslow's Soothing Syrup has been used by millions of mothers for their children when teething. If disturbed at night and broken of your rest by a sick child suffering and crying with pain of cutting teeth send at once and get a bottle of Mrs. Winslow's Soothing Syrup for children teething. It will relieve the poor little sufferer immediately. Depend upon it mothers there is no mistake about it. It cures Diarrhoea, regulates the stomach and bowels, cures Wind Colic, softens the gums, reduces inflammation and gives tone to the system. Mrs. Winslow's Soothing Syrup for children teething is pleasant to the taste and is the prescription of one of the oldest and best female physicians and nurses in the United States. Price 25 cents a bottle. Sold by all druggists throughout the world. Be sure and ask for "Mrs. Winslow's Soothing Syrup."

PLATFORM.

The Silver Party of Nevada pledges its unwavering devotion to the principles of government laid down by Jefferson and Lincoln: That the highest duty of government is to so regulate its laws that the spirit of equality shall follow the letter; that government shall afford opportunity to work out to the fullest measure its possibilities, unrestricted by law, and unaffiliated by the conquest of his dominion of opportunity by other men. We endorse, as expressing the democracy of the American people in accordance with the foregoing, the platform of the National Silver party formulated at St. Louis, July 28, 1896, and the financial plank of the National Democratic party adopted at Chicago, July 7, 1896.

The history of the movement for the restoration of bimetalism is the glorious story of Nevada's leadership. The educational work so patriotically undertaken six years ago has spread throughout the entire country. On the issue that the value of money is quantitative and not qualitative, the intellectual and political forces of nations are now battling. Mindful of her glorious record Nevada will take her place again in the conflict, not as the ally of gold, but on the side of those who struggle in the fields of adversity.

We reaffirm our devotion to the free and unlimited coinage of silver at the ratio of 16 to 1 by the independent action of the United States, and we are unflinchingly opposed to the Republican policy of increasing the bonded debt, transferring the sovereign power of the government to issue money to banking institutions; of contracting the circulating medium to the single gold standard, and of increasing taxation while contraction is diminishing the means of payment.

Our faith in the loyalty, ability, and wise leadership of William J. Bryan is undiminished, and we predict for the silver forces of the United States, with 16 to 1 as their motto, and William J. Bryan as their standard bearer, an overwhelming victory in 1900.

We invite the co-operation of the Republican party of Nevada who declared in their platform of May 30, 1896, as follows:

"Resolved, That the Republican party of this state is in favor of free and unlimited coin-

age of both gold and silver; that it holds to this principle as a tenet of party faith and a test of party allegiance; that it will permit of no abandonment or modification of this doctrine; that let whosoever prove recreant to this principle of bimetalism it will remain steadfast thereto."

And who on May 9, 1896, at Virginia City, declared as follows:

"We again reiterate our steadfast devotion to the cause of the free and unlimited coinage of silver, and declare that in our judgment the restoration of the true bimetallic standard of value as it existed previous to 1873, namely, at the ratio of 16 to 1, is an absolute and indispensable requirement before the financial system of our government will afford the people a value of stable circulating money sufficient to place the business of the country on a permanently prosperous basis."

We endorse the action of Nevada's representatives with respect to tariff and financial legislation; commending their patriotic support of the administration in time of war, whilst using all efforts to prevent the issuance of bonds.

We say to the Republican party of Nevada: Do not the beneficent results of the tariff schedules of the Dingley bill which affect Nevada, and which Nevada's Silver representatives secured, namely: wool, cattle, hides, cyanide, and borax, all upon you as the value of the tariff, and not the tariff? And if so, in what manner could Republican Representatives have done more?

We say to the Democratic party of Nevada: Has not the action of Nevada's Representatives on financial legislation been in keeping with the Democratic platform of 1896, and, in this respect, could Democratic Representatives have done more?

We express our profound appreciation of the tireless efforts of Nevada's great old man, Wm. M. Stewart, not only as the leader of the silver cause in America, but for his great devotion to the local interests of the State, as exemplified by the fact that he has been the author of many of the important measures affecting Nevada's interests which have been enacted by Congress; namely, the mining laws of the United States, the Carson Mint, the Agricultural Experiment Station, which enables the State University to receive \$40,000 a year Government aid, and the securing of a military instructor at the State University. We further commend his efforts, now likely soon to be crowned with success, to secure the payment to the State and citizens of Nevada of nearly half a million dollars for money expended in the suppression of the war of the rebellion, and Indian outbreaks. We endorse his proposal to secure legislation making Lake Tahoe and vicinity a national park, the Government purchasing an equitable basis for the rights of persons whose interests are affected, as not only preserving from destruction one of Nature's grandest works, but giving the National Government control for irrigation purposes of a great lake reservoir, which will guarantee the farmers along the Truckee river more water for irrigation, and enable a vast additional area of arid land to be brought under cultivation.

We earnestly recommend the re-election of Wm. M. Stewart to the Senate of the United States, and pledge the Silver party of Nevada and the nominees of this convention to his support for that office.

To our other Senator, John P. Jones, we extend the greeting of a people who rejoice that they have such a great public servant who has honored the commonwealth which has delighted to honor him. His pre-eminent knowledge of all financial questions has been used by him for the benefit of the whole world, and his speeches in the United States Senate on the silver question have become the text book of these statesmen who are devoted to the interests of the whole people.

We take pride in the career of Francis G. Newlands in Congress, notably in the fact that he has risen in a year to a place among the leaders of the House, and that his influence in public affairs is becoming more and more manifest, as is shown by his great part in the annexation of the Hawaiian Islands, a consummation anticipated and desired by the American people for more than fifty years. We declare that Nevada cannot afford to lose him as her Representative in the halls of Congress.

Recognizing the importance of State development upon agricultural lines, we commend the efforts of our Representative in Congress to secure for the State of Nevada legislation looking to the reclamation of arid lands, and the storage of water in reservoirs, and urge our Senators and Representative in Congress to secure the passage of the irrigation bills now before Congress, introduced by our Representative Francis G. Newlands.

The United States is now in the rightful control of Cuba, Porto Rico, and the Philippine Islands, and we are in favor of holding the same until the American people shall have time to consider and make such disposition of the new acquisitions as sound policy and the interests of the whole country may require.

We favor the construction of the Nicaragua canal by the Government of the United States of America as a political and commercial necessity.

At the last session of Congress a law having been passed providing for the building of a railroad to the Government of the United States, the terms of which require the payment of the entire debt, principal and interest, within ten years, with interest at the rate of 6 per cent per annum, and in failure to make such settlement within one year, the mortgage lien of the United States to be at once foreclosed, and the property sold to the highest bidder, we favor foreclosure according to the terms of said Act in case its conditions regarding settlement are not complied with.

Certain decisions of the United States courts having shorn the Inter-State Commerce Commission of the authority and powers undoubtedly intended to be conferred upon it, and the originally enacted, we favor such amendments to the Act as will make it an effective protection to the people against discriminating tariffs.

The heroism and valor of the American soldier and sailor have won additional laurels during the war with Spain. The story of the brave deeds of our naval and military heroes will forever form a glorious page in American history. On land as well as sea American soldiers have proved their unsurpassed courage. Praising those who fought our battles, we condemn the traitorous conduct of those officials, whoever responsibility may rest to whose culpability is due the death by starvation of 40,000 of our brave soldiers, and the involvement in the conduct of the war so impudently and completely investigated, and that adequate punishment be meted to whoever due.

The people of Nevada are justly proud of their University. We commend the efficient management which has made it an institution of infinite usefulness and widening possibilities. Its influence is already felt as a potent factor for the intellectual and economic development of the State. We pledge, to its generous support and hearty co-operation along every line that will tend to maintain its present high standard, or conduce to its improvement.

This convention pledges its nominees for Governor, Secretary of State, and Superintendent of Public Instruction, to carry into effect the sixth section of Article 10 of the State Constitution which provides that the Legislature shall provide a special tax which shall not exceed two mills on the dollar of all taxable property in the State in addition to the other means provided for the support and maintenance of the State University and common schools. This convention recommends all county conventions of the Silver party to pledge their nominees for the State Legislature to carry into effect the State Constitution by passing a bill levying a tax of one mill on the dollar of all taxable property in this State in addition to the other means now provided by law for the support and maintenance of the State University and common schools of this State.

We invite comparison of the four years during which the Silver Party has been in control of the State Government with the last four years of the Republican administration. The expenses of the last Republican Legislature amounted to \$51,000, that of the last Silver Party Legislature, \$29,500. The expenses of the Executive Department for the last year immediately preceding Silver Party control amounted to over \$35,500, while but \$29,500 were the expenses of the Executive Department for 1897. For the last four years of Republican management \$8,000 were expended in public buildings as against \$500 for the Silver Party. And during the periods in comparison, in support of the public schools of the State, the Silver Party expended \$377,000 as against \$258,500 by the Republican party. No one can examine the foregoing figures and draw a conclusion which might be adduced, without the resulting conviction that the Silver Party has fulfilled its promise of retrenchment with reference to salaries of State officials and the curtailment of unnecessary expenses, while, on the other hand, it has generously fostered the educational and charitable institutions of the State and wisely contributed to its public improvement.

BIDS OR PROPOSALS WANTED.

NOTICE IS HEREBY GIVEN THAT BIDS or proposals will be received by the City Council of the City of Reno, Nevada, until 1:30 o'clock P. M. of Saturday, November 12th, 1898, at the office of the City Treasurer of Reno, for the purchase of "Reno Water Works bonds" in the sum of \$100,000 or any portion thereof not less than the sum of \$500. Said bonds to bear interest at the rate of six per cent per annum, payable annually at their maturity at the office of the City Treasurer of Reno. Said bonds shall not be liable to taxation by said city, and bids or proposals will be received by said Council as aforesaid for the construction and putting in of a water system for said City of Reno, in accordance with the plans and specifications adopted by said City Council on May 1st, September 26th, 1896, which said plans and specifications are now on file with the Clerk of said Council, at his office in the Court House of Washoe county, at Reno, Nevada, and are hereby referred to and made a part thereof, and will be subject to public inspection at any time between the hours of 9 o'clock A. M. and 4 P. M., legal holidays excepted. Payments for the construction and putting in of said water system will be made by said City of Reno, bearing interest at the rate and payable at the times and at the place and be untaxable by said city, and shall be less than their par value, in the manner provided in said specifications. All bids or proposals shall be sealed, and so endorsed upon the envelope as to indicate the character of the contents, and addressed to F. B. Porter, City Clerk, Reno, Nevada.

The person or corporation offering to provide the best permanent system of water supply for the least number or amount of bonds, shall be deemed the lowest and best bidder; provided the Council reserves the right to reject any and all bids.

F. B. PORTER, Clerk.

STATE LAND OFFICE.
CARSON CITY, NEV., September 2, 1897.

NOTICE IS HEREBY GIVEN THAT THE State of Nevada, under the Act of Congress approved June 18, 1890 (21 Stats. 227), has filed in the United States Land Office at Carson City, Nevada, List No. 240 of lands selected under said Act, and has applied for a patent for said lands; that a part of said list is open to the public for inspection, and a copy thereof, by descriptive sub-divisions, has been posted in a convenient place in said United States Land Office for the inspection of all persons interested and the public generally.

Within the next sixty days following the date of this notice protests and contests against the claim of said State of Nevada to any tract or sub-division described in the list, on the ground that the same is more valuable for mineral than agricultural purposes, will be received and noted by the Register and Receiver of the State of Nevada, at Carson City, Nevada, for report to the General Land Office at Washington, D. C.

The following are the sub-divisions described to wit:

SW 1/4 of NW 1/4, and NW 1/4 of SE 1/4 of Sec. 16, T. 24, N. R. 18 E., M. D. B. 31 A. C. PRATT.
